Menu: Vegetarian or low carb meals must be requested early

Reservations: **RSVP no later than 4:00pm Tuesday 1/31** via an

Email to [Tricia King](#), Patricia.king@rockwellautomation.com

Dave Booth

**Compressed Air
Systems
Opportunities –
Maximizing your
Compressed Air
System
Investment**

This month's chapter program will give us the opportunity to learn more about compressed air systems and how you can maximize your investment in your compressed air system. Dave will be sharing an overview on understanding the costs associated with compressed air systems and identifying the opportunities to improve compressed air system performance and efficiency. This will be primarily an awareness discussion to help the audience understand key areas of concern and actions they can take to better monitor their system and start improving their systems performance.

Dave Booth has a degree in Engineering from the University of Notre Dame and is a CAGI Certified Compressed Air Systems Specialist, DOE AirMaster+ and Qualified Instructor for the Compressed Air Challenge (CAC) Training Program. With more than 30 years of experience in the design, maintenance and installation of mechanical and electrical systems, he brings a broad range of diverse problem solving skills and perspective to improving compressed air systems.

For the past 25 years, my primary focus has been training and supporting service providers and end users in the fundamentals of understanding and managing compressed air and vacuum systems. My experience and leadership in systems auditing, design and efficiency improvement are driven by my goal of providing end users with customized compressed air solutions

Professional Development Certificates (1 hour) will be provided after the webinar. The webinar should conclude by 1 pm

ANNOUNCEMENTS:

- We are always looking for more great ideas of programs and speakers. Please feel free to suggest any topics you would like to learn about

2022-23 Chapter Programs

Good programs are what make the Chapter meetings a success. Last year your participation (attendance) was great. It is directly attributable to the quality of programs. Input is continually needed from everyone (both members and non-members) for topics (and potential presenters) that are of interest. Efforts will be made to address all needs (residential, commercial, nuclear, renewable, etc.), so do not be ashamed to ask.

Contact [Kay Thrasher](#) or any current Board member with suggestions.

2022-23 Meeting Dates	Topic
09/07/2022	ETHICS
10/05/2022	Values and Benefits of Home/Commercial Inspections
11/02/2022	Roundtable Discussion
12/07/2022	New Refrigerant Codes
01/04/2023	Indoor Pool Room Design
02/01/2023	Compressed Air Systems
03/01/2023	
04/05/2023	
05/03/2023	
TBD	Golf Tournament Fundraiser
