ADDITIONAL BOARD OF GOVERNORS
(Outside of Officers Listed Above)

David Dinse 706-820-0711

Jac Cooper 423-280-8361

Joe Runyan 423-285-2556

BOG meetings are typically held on the 3rd
Monday, 12:30-1:30 pm at Council Fire
Clubhouse

***IN PERSON* MEETING NOTICE**

Date: Wednesday, May 03, 2023

Time: 11:30 a.m. Lunch served & Chapter Announcements

Place: [Mountain City Club](#), 729 Chestnut St., Chattanooga

Cost: \$20 if you're not on the meal plan

\$10 for ASHRAE student members (must be a member)

Now accepting credit cards via smart phone app or online via PayPal

Menu: Vegetarian or low carb meals must be requested early

Reservations: **RSVP no later than 4:00pm Tuesday 5/2** via an

Email to [Tricia King](#), Patricia.king@rockwellautomation.com

Kenworthy**

**Building Readiness
Post COVID-19
Pandemic**

This month's chapter program will give us the opportunity to learn more about guidance on how to reopen buildings with healthy ventilation post COVID-19 pandemic

The presentation will discuss two topics: guidance from ASHRAE for building reopening and readiness post the COVID-19 pandemic, and how it complies with the T24 Building Energy Efficiency Standard (2019). Other healthy ventilation controls should allow building operators to configure air changes to help reduce the concentration of airborne infectious particles. Supervision for facilities to purge high levels of CO2 using the demand control ventilation. Explanation of fault detection and notification for conditions such as air temperature sensor failure that are fully compatible with T24, Part 6, Section 120.2(i). We'll also discuss healthy buildings dashboards through HTML 5, and the benefits of developing such.

Mike is a Metasys Controls Sales Support Manager for JCI. He brings 25 plus years of engineering and sales experience. As a senior business developer and channel management professional, Mike has focused his sales career on controls, industrial and building automation, and energy management. He has held leadership positions as a Senior Engineer, Sales Director, and Account Business Developer. For 7 years, Mike has been with the JCI Metasys products account management team which promotes JCI future smart BAS, allowing users to easily navigate buildings and spaces from any mobile device. Metasys delivers deep building insight and analytics technology to help energy managers run their buildings in the most efficient manner possible. Mike is a two-time Master of Sales Excellence Award winner, and multi-year Merit Award winner. He holds a Bachelor of Engineering Degree from Stevens Institute of Technology.

Professional Development Certificates (1 hour) will be provided after the webinar. The webinar should conclude by 1 pm

ANNOUNCEMENTS:

ASHRAE and Chapter Membership

The following reflects insights that came to mind while working through the Chapter database this month.

From the data:

The Tennessee Valley Chapter has 84 assigned members this year. Hopefully we will not have a “net loss” again this year. We had 88 assigned members in 2019. NOTE - Chapter membership is a very fluid and at times imperfect number. It includes new members, cancellations, and transfers in and out, and also members who should have been assigned to another chapter due to their physical address.. A high-level look at several sections from our member scorecard this month looks as follows:

- **Six (6) New Members** – Walter Coffman, Logan O'Dell, Gage Plotner, Syllas Rehbein, Charles Trower, Wang Pengtao – Welcome to all of you. If you see any of them at the meeting, make sure they are welcome. If you know them and they are not attending the meetings, invite them. We need active members!
- **Six (6) Member Cancellations**
 - Four cancellations for “non-payment of dues were recorded
 - Two members have passed away this year – Bill Estes and Joe Robbins
- **Transfers (-1 net)** – There have been three (3) members “Transfer in” to the chapter and four (4) members have “Transferred Out”. People move.
- **Demographics** – It looks like the “old guys” are beating the “young guys” here as *the chapter has nineteen (19) “Life Members” assigned compared to only eleven (11) “YEA Members”.* **This really needs to be reversed** as many of us “old guys” are slowing down. BTW, my use of the term “old guys” is nowhere close to being politically correct as our newest chapter Life Member is Kay Thrasher. **Congratulations Kay!!!**

As one can see, from a data point of view it is easy to develop an interesting visualization.

You, the Chapter, member probably see a completely different perspective through your work, interaction and networking opportunities between each other.

Programs - The Chapter wants to be a benefit to you. Hopefully, you all are being fed program material that is of benefit to you, if not, “SPEAK UP” so we can work toward better meeting your expectations. Participation - Participate and stay active. If no one asks you to help, step forward and volunteer. Participation can help one develop leadership skills that are transferrable to your “day job”.

2022-23 Chapter Programs

Good programs are what make the Chapter meetings a success. Last year your participation (attendance) was great. It is directly attributable to the quality of programs. Input is continually needed from everyone (both members and non-members) for topics (and potential presenters) that are of interest. Efforts will be made to address all needs (residential, commercial, nuclear, renewable, etc.), so do not be ashamed to ask.

Contact [Kay Thrasher](#) or any current Board member with suggestions.

2022-23 Meeting Dates	Topic
09/07/2022	ETHICS
10/05/2022	Values and Benefits of Home/Commercial Inspections
11/02/2022	Roundtable Discussion
12/07/2022	New Refrigerant Codes
01/04/2023	Indoor Pool Room Design
02/01/2023	Compressed Air Systems
03/01/2023	Hydronic Systems for Decarbonization
04/05/2023	HVAC Building Pressurization Systems
05/03/2023	Healthy Ventilation Guidance
5/25/2023	Golf Tournament Fundraiser
