Reservations: RSVP no later than 4:00pm Tuesday 10/5 via an Email to [Tricia King](#), tking@cornerstone-automation.com or call 423-619-8001

Andy Street	Joining Methods for ACR (Air Conditioning and Refrigerant) Copper
--------------------	--

This month's chapter program will give us the opportunity to learn more about the different joining method for ACR Copper.

Traditionally ACR copper has been joined through a brazed or soldered method. The newest method is a mechanical press fitting that is offered by a few manufacturers. This session will compare and contrast three joining methods.

Andy has been a cornerstone of A6 Sales since day one and has proven himself a loyal and hardworking team member. Outside of an extended R&R in 2016 in the ICU, Andy covers all segments of the business in East Tennessee, certain wholesale distributors in Middle TN and plumbing and mechanical contractors in Middle Tennessee. Andy came to A6 from A.O. Smith as well where he was a district sales manager in Tennessee for about two years. Prior to that and since his graduation from the University of Tennessee Knoxville, Andy was in sales in the outdoor sporting industry and is often part of a winning team at charity sporting clay events within our industry. A mostly shy introvert, once he emerges from his shell, he has been known to find something to talk about. Andy, and his wife Jennifer, reside in Dickson with their two children. Andy is very involved in youth baseball and is stuck on Step One in a duck hunting addiction program.

Professional Development Certificates (1 hour) will be provided after the webinar. The webinar should conclude by 1 pm

ANNOUNCEMENTS:

- We are always looking for more great ideas of programs and speakers. Please feel free to suggest any topics you would like to learn about

2021-22 Chapter Programs

Good programs are what make the Chapter meetings a success. Last year your participation (attendance) was great. It is directly attributable to the quality of programs. Input is continually needed from everyone (both members and non-members) for topics (and potential presenters) that are of interest. Efforts will be made to address all needs (residential, commercial, nuclear, renewable, etc.), so do not be ashamed to ask.

Contact [Kay Thrasher](#) or any current Board member with suggestions.

2021-22 Meeting Dates	Topic
09/08/2021	Manual or Automatic Balance of Hydronic Systems
10/06/2021	Improving Building IAQ
11/03/2021	ACR Joining Methods
12/01/2021	Humidity Control in Commercial Buildings
01/05/2022	
02/02/2022	
03/02/2022	
04/06/2022	
05/04/2022	
TBD	Golf Tournament Fundraiser
