Panel Discussion

**Contractors,
Architects,
Engineers and
Owners**

**What we all can
do better to
complete
projects on
time and on
budget**

This month's meeting will feature a panel discussion with Contractors, Architects, Engineers and Owners to discuss what we all can do better to complete projects on time and on budget.

Our speakers will address questions such as how to reduce change orders, how do you coordinate with other trades, does this need to improve and what particular issue do you see frequently. Discussion from all sides of the design activity will help us to develop better construction processes and ultimately improve how we design and build. As always, we welcome participation and questions.

Professional Development Certificates (1 hour) will be provided at the Lunch meeting. The lunch meeting should conclude by 1 p.m.

2017-18 Chapter Programs

Good programs are what make the Chapter meetings a success. Last year your participation (attendance) was great. It is directly attributable to the quality of programs. Input is continually needed from everyone (both members and non-members) for topics (and potential presenters) that are of interest. Efforts will be made to address all needs (residential, commercial, nuclear, renewable, etc.), so do not be ashamed to ask.

Contact [Kay Thrasher](#) or any current Board member with suggestions.
