**Our New  
Energy Future**

“A rapid evolution is underway in the electricity sector that will also have a significant impact on the buildings sector. The result of this evolution is our new energy future, which is not far away. As a critical organization for buildings professionals, ASHRAE and its members must take an active role in the ongoing changes that will create this new energy future.”

ASHRAE has published a report ***Building Our New Energy Future*** which is available at [www.ashrae.org/about/leadership/ashrae-president](http://www.ashrae.org/about/leadership/ashrae-president).

This month's chapter program will give you an opportunity to learn more of what is happening from the local Chattanooga perspective. EPB Chattanooga's Commercial Energy Services will be giving us a presentation about the rapidly changing electric power industry and how these changes will impact ASHRAE member's as they serve their customers.

EPB's Key Customer Engineer David Stocks PE, CEM and Ann Eslinger a Commercial Energy Analyst will present the latest locally available electric programs for incentives, voluntary demand reduction and community solar.

David Stocks is the Senior Engineer for EPB's Commercial Energy Services Group. His responsibilities include serving as EPB's first point of contact for large commercial and industrial customers. This encompasses technical engineering services, rates and contracts, economic development and a variety of other programs.

Ann Eslinger's role in EPB's Commercial Energy Services Group is to steward EPB's relationship with small to mid-sized commercial and industrial customers. This includes outreach to customers, education, economic development and aiding customers in obtaining incentives through the Energy Right Solutions for Business and Energy TVA programs.

Professional Development Certificates (1 hour) will be provided at the Lunch meeting. The lunch meeting should conclude by 1 p.m.

## Membership Notes

**High Lights**

New year new opportunity! Invite a potential member to the meetings. Also, please help by keeping current on both your Society and Chapter membership dues.

**Hard Spots**

None to report.

## 2017-18 Chapter Programs

Good programs are what make the Chapter meetings a success. Last year your participation (attendance) was great. It is directly attributable to the quality of programs. Input is continually needed from everyone (both members and non-members) for topics (and potential presenters) that are of interest. Efforts will be made to address all needs (residential, commercial, nuclear, renewable, etc.), so do not be ashamed to ask.

Contact [Kay Thrasher](#) or any current Board member with suggestions.

2018-19 Meeting Dates	Topic
09/05/2018	Our New Energy Future (EPB Programs)
10/03/2018	Heat Tracing
11/07/2018	Coca Cola Plant Tour
12/05/2018	10 Code Lessons Learned
01/09/2019	VRF Insulation
02/06/2019	TBD
03/06/2019	TBD
04/03/2019	Thermal Displacement Ventilation
05/01/2019	TBD
May TBD	Golf Tournament Fundraiser
